SIR:

In response to the Office Action dated February 22, 2006, please amend the above-identified application as follows:

IN THE CLAIMS

Please enter the following new claims:

33. In a sport shoe comprising an upper, a sole made from a laminated profile comprising several layers performing distinct functions, respectively, said sole being surmounted by said upper, wherein said sole comprises at least three layers external to said upper, namely:

(a) a ground contact layer with determinate properties of flexibility, gripping and abrasion-resistance which provide good foot extension, good ground traction and a high level of wear resistance;
